Clear & Clean glass cleaning formula

Clear & Clean is a highly concentrated formula specifically designed for use on automobiles. It contains water miscible solvents and a blend of proprietary surfactants to easily cut through plasticizer build-up found on modern vehicles. Our Glass Cleaner does not contain ammonia and it is safe for all tinted windows. Fast and easy to use, just spray and wipe to create clean, streak-free surface on glass, plastic, hard laminate surfaces and chrome. Just as effective for home use as a multi-surface cleaner. Works great on counter-tops, stoves, mirrors, windows and other household surfaces.

Key Features

- Highly Concentrate
- Safe, water-based formula
- Does not contain Ammonia
- Safe for tinted windows
- Clean, fresh fragrance
- Streak-free, fast drying formula

Multipurpose Kitchen Cleaner

No HAPs OR APEs

Directions

1. Dilute 30 parts water to 1 part Glass Cleaner. It is best to use purified water, if available.
2. Spray onto glass and wipe with a clean, lint-free, microfiber towel to spread evenly over entire area.
3. Flip towel over to a clean, dry side and remove any residue.
4. Glass will be clean and streak-free
